WHITE MAN LYNCHED IN NORTH CAROLINA

Body of Victim Left Hanging Before Attorney's Door.

MOB TOOK THE JAIL BY STORM

Town of Wadesboro, N. C., Where the Lynching Occurred, Is All Excitement—All Parites Involved Are Prominent.

Wadesboro, N. C., May 29.—About 1 o'clock Monday morning a mob took John V. Johnston, a white man charged with the murder of his brother-in-law, Gwynn Johnston, from jail here and carried him about a quarter of a mile from town, where they hanged him and riddled his body with bullets.

The jail doors were broken down and when the sheriff hesitated about turning over the keys to the mob they threatened to shoot Johnston in his cell.

At the last term of court there was a mistrial in the case, eleven jurors standing for murder in the second degree and one for manslaughter, and this is supposed to have been the immediate cause of the lynching.

The body of Johnston was left hanging in front of the lawyer's house who defended him.

All parties connected with the lynching are prominent white people of lower Anson county. None of the lynching party are known.

The town is all excitement.

Settle Controversy.

Washington, May 29.—The house committee on ways and means has settled the long pending controversy between Port Arthur and Sabine Pass, Tex., in their desires to each become a port of entry in favor of Port Arthur. A bill was authorized favorably reported which accepts the offer of John W. Gates, made on behalf of the Kansas City Southern railroad, which gives to the government the ship water canal at Port Arthur, said to have cost $1,500,000. The bill authorizes the secretary of war to accept title to this property, and also to acquire from the state of Texas the control of the waters of the port. With these acquisitions accomplished, Port Arthur will become a port of entry.

Railroad Company Win.

Washington, May 29.—The supreme court of the United States has decided the case of the North Carolina railroad commission versus the Southern Railway company, in favor of the railroad company. The case involved the right of a state to compel a railroad company to place its cars on tracks designated by the state authorities for the benefit of individual shippers. It was instituted by the corporation commission against the railroad.

Threatened with Revolution.

Washington, May 29.—Guatamala is threatened with a revolution which may endanger American interests in the republic, according to a dispatch received from the state department from Minister Combs and Consul A. C. a concern owning railway and docs properties in Guatemala. The seat of the trouble is in the northern part of the republic, near the Mexican frontier, but the cause is internal.

Reiterates Decision.

Washington, May 29.—The supreme court of the United States has rendered its decision of the last term in the Philippine cases of Warner Barnes & Co. and Frederick W. Lincoln, involving the validity of the tariff collections in the Philippine islands on the executive order of 1899. The decision was delivered by Chief Justice Fuller. The case involves about $1,000,000.

Will Adjourn Saturday.

Memphis, May 29.—The Brotherhood of Locomotive Engineers will take up the matter of an assessment for the benefit of widows and heirs of deceased members. It is expected that final adjournment will be reached by next Saturday as the remainder of the convention's work is largely of a routine character.

SCHOONER SINKS, ONE DROWNS.

Seven Other Members of Crew Rescued After Hard Fight.

Cleveland, O., May 29.—Buffeted by the fierce storm that swept Lake Erie Monday, the schooner Mabel Wilson sprang a leak, and sank just outside the Cleveland breakwater.

One sailor, whose name has not yet been learned, was drowned. Seven other members of the crew were rescued after a hard fight, three of them being taken off by the tug Lutz, and four by the life-saving crew.

The Mabel Wilson arrived off the harbor shortly before daylight and in response to her signals the Lutz went out and tried to bring her inside the harbor. Because of a heavy sea, the tug was unable to handle the vessel, and the schooner was anchored in the hope that she might ride the storm, but the waves soon engulfed her.

Captain Gorham and Mate Gunnison, of the schooner, were badly hurt while being taken from the sinking vessel. They were taken to the marine hospital.

The Mabel Wilson was loaded with ore from Escanaba. She was of 2,500 tons burden, and was owned in Detroit, Mich.

Slaymaker Mortally Wounded.

Philadelphia, May 29.—Frank Slaymaker, a policeman, in the tenderloin district while attempting to make an arrest was shot and probably fatally wounded by his prisoner, who says his name is John Maxwell, and his home is in Pittsburg. Maxwell and a woman, while in a Chinese restaurant were accused of robbing a man. A fight started and Policeman Slaymaker was called in and arrested Maxwell and his companion. While waiting for a patrol wagon, Maxwell drew a revolver from a pocket and shot the policeman through a lung. The prisoner ran, but was quickly captured, and when searched at the station house, a burglars' outfit was found upon him.

Rumney Killed by Williams.

Dawson, Ga., May 29.—Saturday night F. C. Williams killed Owen Rumney, shooting him in the head with a pistol. Williams claims Rumsney, who was unknown to him, began cursing him as he was passing and attempted to shoot him, whereupon he drew his pistol and fired in self defense. Williams immediately hunted up officers and surrendered. He is being guarded at the court house awaiting trial. He came here from Waycross some months ago and was in the employ of the Dawson Market and Grocery company. Rumney was born and reared here and is survived by his mother. Williams and Rumney were both young men.

Will Build Reformatories.

Chicago, May 29.—A dispatch to the Tribune from New Orleans says that Dr. Crawford Jackson, chairman of the Central Juvenile Protectory of Atlanta, which has started a propaganda for juvenile courts and greater reformatory facilities for boys and girls of the south, announced at a meeting of interested persons in New Orleans that John D. Rockefeller had decided to give $1,000,000 toward the building of reformatories. The only condition which Mr. Rockefeller has stipulated is that the fund shall be applied in the south as well as in the north.

Brakeman Dies in Train Wreck.

Oglethorpe, Ga., May 29.—The train hauling the mail from Oglethorpe to Southland was wrecked at 11:30 o'clock Sunday. The engine and five cars left the track and the engine turned over. Fireman W. K. Barfield had a small bone in his left leg broken and was received a few bruises. The negro brakeman, Henry Thomas was killed. The train left the track about three miles south of Oglethorpe. Engineer R. H. Judge displayed his courage in sticking with the engine until everything was over and then crawled out with Fireman Barfield.

Surety Company President Dead.

New York, May 29.—Alexander Craig, of Indianapolis, vice president and general manager of the Fidelity & Deposit Surety company died at a sanitarium here Monday of heart trouble brought on by a stroke of apoplexy. He was 45 years old. Mr. Craig came to this country from Scotland and at one time was auditor of the Missouri, Kansas and Texas Trust company in Kansas City.

THE ONLY HOPE OF AVERTING REVOLUTION

Is Formation of Ministry of Constitutional Rights.

REBELS PROFIT BY DEADLOCK

Two Plans for Extricating the Government Without Meeting the Direct Issue Are Suggested by the Emperor's Moderate Advisors.

St. Petersburg, May 2[9] - The pessimism over the outlook continues to grow. The government, as usual, in every crisis, seems to be vacillating as to which course to pursue. The emperor refuses to yield to the counsels of the court of Carilla, but his attitude continues to be negative and affirmative. He seems to cling to the idea that a compromise is still possible. Several official notes have been issued denying that the government intends to resort to force, but at the same time there is no evidence that the emperor is ready to yield to the demand for the supercession of the present ministry with one from the majority in the lower house of parliament. The result is a virtual deadlock, the prolongation of which can only serve to diminish the chances of a peaceful settlement.

Two plans for extricating the government without meeting the direct issue are suggested by the emperor's moderate advisors. One is simply to allow the lower house to talk until the end of June, when the summer vacation will be scheduled.

The other is to dissolve parliament and order a new election. But the latter course, in the judgment of the best judges, will only increase the danger of the situation.

The peasantry, whose hopes are in parliament, would doubtless be profoundly stirred by the government's refusal to distribute the crown and church lands and recognize the principle of the expropriation of private holdings, and many people expect to see the destruction of their hopes followed by an immediate uprising of the peasants against the nobles.

The correspondent of the Associated Press has talked with a number of landlords from various parts of the country who declare that the peasants are frantically attached to parliament and that between the dictum of the emperor and of parliament they will obey the authority of the latter. The revolutionary leaders and the political organizations of the cities are sure to profit by the deadlock and a terroristic campaign is already in full swing.

M. Schoff of Moscow, who last week was considered a possible compromise premier, is out with an interview declaring that after the action of the lower house on Saturday he would not accept the premiership. The only hope now of saving Russia from a revolution is the formation of a ministry of constitutional rights which will throw on the lower house the responsibility of fighting the extreme elements.

Action Caused Surprise.

Chattanooga, Tenn., May 29.—The action of the attorney general of the United States came as a surprise, the grand jury having failed to find an indictment against the lynchers of Johnson, although strongly charged by Judge McReynolds. It is supposed that the evidence adduced was insufficient to make out a case against any suspect. Ten of the men named by the attorney general are officials, the sheriff and his deputies. The others are not widely known or prominent.

Two Hurt in Runaway.

Jackson, Miss., May 29.—An electric car Sunday afternoon frightened the horse driven by Harry Huber, a prominent attorney of Edwards, who was with Miss Mary Peter Gordon, one of the wealthiest young women in the state. The lines broke and Huber seized Miss Gordon and jumped to be prevented. Both are dangerously hurt. The horse continued to run, striking a telephone pole and was instantly killed. The team frightened another team, one of which was run over by the street car and killed.

FESTIVITIES AT MADRID.

In Honor of Wedding of King Alfonso To Princess Ena.

Madrid, May 29.—The feature of Monday's festivities in honor of the wedding of King Alfonso to Princess Victoria, as the Spaniards term Princess Ena of Battenberg, was an automobile parade in which a royal party participated.

Two hundred cars beautifully decorated with flowers and flags and filled with pretty women in gay costumes, defiled through the streets which were packed with holiday crowds.

On passing the royal palace King Alfonso, Princes Charles and Ferdinand and the Infanta Isabel joined the procession, the king and princess driving their own carriage. The route was to the Pardo palace, where Princess Victoria reviewed the parade.

During the afternoon, the king and queen were received by parliament, and later they drove in an automobile through the palace park. During the trip, the king observed a soaring eagle, called to the game keepers for a rifle and fired, but missed. Mr. Whitelaw Reid, the special envoy of the United States, will arrive here at midnight.

Body of Woman In River.

New York, May 29.—Under conditions that indicate murder, the body of a young woman was found on the Bronx's shore of the Harlem river. The body was scantily clad and around the neck was a tightly fastened piece of cord. An autopsy showed that death probably was not due to drowning, but the condition of the body, which had evidently been in the water for several weeks, was such as to make it impossible to determine the precise cause of death. The body was that of a woman about 25 years of age.

Premier and Cabinet Resign.

Vienna, May 29.—Premier Prince Conrad von Hohenlohe-Schillings-fuerst and cabinet have resigned because of dissatisfaction with proposals for a settlement of the common customs tariff of Austria-Hungary. The premier, this afternoon submitted to the Hungarian minister the offer that an agreement had been reached which included Count Von Andrassy's withdrawal from the Hungarian ministry. Count Von Andrassy is the leader of Hungarian Independence party and it is regarded as probable that he will be charged to form a new ministry.

Caught After 11 Years.

Columbus, Ga., May 29.—George Sailer, a negro who escaped from the Muscogee county chaingang 11 years ago, was arrested in Atlanta and is now in Muscogee county jail. The officers have been tracking him from place to place for five years. He is a railroad employe. Sailer was sent up for assault and battery in 1895. Five escapes from the Muscogee chain gang have been captured this year and in several instances they have been at liberty a long while.

Fire Marshal Removed.

Chicago, May 29.—Fire Marshal [illegible] Campion was Monday summarily removed from office by Mayor Dunne. The action of the mayor in discharging the head of the fire department came as a complete surprise to the people of the city. The trouble originated in a dispute between the fire chief and the mayor over some modifications on some fire engines about to be purchased.

Nine Miners Burned.

Monongahela, Pa., May 29.—Nine men were burned, two of them seriously, in a gas explosion in the mine of the Brownell Coal company near Bentleyville, Crawford county, the night boss, and James Manchester, the fire boss, are burned so badly by the fear of they will lose their sight. The others received burns about the face and hands.

FLORIDA TO HAVE FOREST RESERVES

General Land Office Directs Immense Tracts to Be Reserved.

WILL PROTECT THE TREES

Numerous Complaints from Every Section of Florida to the Government Resulted in Investigation, and Special Agent Made Report.

The United States land office in this city has received from the General Land Commissioner, General Land Office, Washington, D. C., a letter of instructions which will ultimately mean a great deal to the people of Florida, as it provides for a forest reserve, which has been so long and so badly needed in the State. The lumbermen and naval stores operators have almost demolished the magnificent forests in which Florida at one time manifested so deep a pride, with the result that in many sections one may travel for miles through a country made desolate and heart-sickening by the absence of the once beautiful trees, which protected every industry of the rural life, and which had been felled and cut into lumber, after having been used to every advantage possible for the manufacturing of naval stores.

The attention of the United States government has several times been called to the reckless and extravagant manner in which the forests were being cleared for the gain of a few, while those who depended upon a livlihood in the country were left helpless. A few months ago, in compliance with numerous requests for aid in this direction, the General Land Office detailed a special forestry reserve agent to come to this State and make investigation, with the result that, from the report submitted, it has now been ordered that the land office here retain three immense tracts for a temporary forestry reserve. One of these reserves will be located in West Florida, in the southern sections of Walton and Santa Rosa counties; one to be located in the eastern section of Marion county; one to be located in Brevard county on Merritt's Island.

The reserves will comprise thousands of acres, and is destined to accomplish much in educating the people in the matter of protecting the forests.

THE PEOPLE'S BANK.

Letters Patent Have Been Applied For Ready for Business in July.

The progressive people of Micanopy, having decided to start a bank of their own and control their own funds, have applied for letters patent for the People's Bank, with a capital of $15,000.

This bank will begin operations with a number of the leading and most substantial citizens of Micanopy at its head, which is a guarantee that the business will prove a paying one from the start. Small banks seem to be the popular fad now, and inasmuch as they have seemed to prove popular elsewhere, there is no reason why the People's Bank at Micanopy should fail to do so.

The new institution will be in a position to transact business early in July. The officers for the first term are C. E. Melton, president; H. L. Montgomery, vice-president; J. D. Watkins, Cashier; J. D. Watkins, H. L. Montgomery, O. L. Feaster, J. B. Simonton, J. J. Barr, E. C. Chitty, C. E. Melton and M. E. Schlater, directors.

The people of Micanopy and vicinity will no doubt be glad to welcome this new institution, which will prove of great convenience to them in banking and cashing checks.

THE CIRCUIT COURT.

Jurors Having Been Summoned, Court Will be Called Today.

The order of the court that the sheriff issue a special venire of qualified persons to serve on a jury for the special term of the circuit court of Alachua county having been complied with, the court will convene at 10 o'clock this morning, His Honor Judge J. T. Wills presiding.

While it has not been stated for what special purpose this term of the court is called at this time, the order of Judge Wills sets people thinking and some have one idea and some another. However, it will be known at the conclusion of the session.

This action is certainly a reflection upon the grand jury at the last term of the circuit court, or either an intimation that that body did not finish the duties devolved before adjourning.

A DIMPLE MAKER.

Find a child with dimples and chubby arms and legs and you find a healthy child. Find one with drawn face and poor, thin body and you see one that needs Scott's Emulsion. Your doctor will no doubt tell you the child is fat-starved—its food is not nourishing it.

Nothing helps these thin, pale children like Scott's Emulsion. It contains the very element of fat they need. It supplies them with a perfect and quickly digested nourishment. Scott's Emulsion brings dimples and rounded limbs.

Just for Fun.

Georgetown, Ky., May 28.—In the $5,000 slander case of Mrs. Frank Thompson versus J. C. B. Schree, the defendant, former county attorney, pleaded his own cause, losing by a verdict of $1,000. During cross-examination Schree was fined $25 for contempt of court, and when he gave the "ha, ha," Judge Stout added another fine "just for fun." The suit was caused by a charge of perjury entered by the defendant in depositions over a land title.

THE GIANT INDIANS.

Peculiar Ways of the Onas of Tierra del Fuego.

The Onas, a tribe of Indians inhabiting the mainland of the Tierra del Fuego island, are physical giants. Their average height is over six feet. A few are six and one-half feet; a few fall below six feet. The women are more corpulent and not so tall. There is no race in the world with a more perfect physical development than the Ona Indians. This is partly due to the topography of the country and the distribution of the game, which makes long marches across the country a necessity.

In mentality they fall far below their physical attainments. In the past their supply of game has been plentiful, and this may account for the lack of inventive genius among them. This lack of progressive skill is portrayed in their home life, clothing and homes. Their children suffer from it, for, contrary to the practice common among most Indians of feeding, dressing and training the children well, the Onas' little ones are mostly naked, poorly fed and altogether neglected. They have abundant material for supplying themselves with clothing and homes, and yet they throw a few branches together, put skins over the windward side and then shiver under the miserable shelter.

Scientists who have made a study of the subject say that the language of the Onas is the strangest ever listened to. Many of the words are not difficult to pronounce, nor is the construction of the sentences difficult, but very few words are interrupted by a sound which it is impossible to produce. The speaker hacks, coughs and grunts, distorting his face in the most inhuman manner, and then passes on to the next stumbling block. The Onas live principally upon meat, which in former years was obtained from the guanaco.—New York Herald.

ST. SWITHIN AND RAIN.

The Legend of the Chapel Over the Bishop's Grave.

The superstitions referring to particular days are very numerous. The legend of St. Swithin is an example that will occur to every one:

St. Swithin's day, if thou dost rain,
For forty days it will remain;
St. Swithin's day, if thou be fair,
For forty days 'twill rain nae mair.

St. Swithin, bishop of Winchester, according to the author of "The Popular Antiquities," was "a man equally noted for uprightness and humility. So far did he carry the latter virtue that on his deathbed he requested to be buried not within the church, but outside the churchyard on the north of the sacred building, where his corpse might receive the eavesdroppings from the roof and his grave be trodden by the feet of passersby. His lowly request was complied with, and in this neglected spot his remains reposed till about 100 years afterward, when a fit of pious indignation seized the clergy at the fact that the body of so holy a member of their order was allowed to occupy such a position, and on an appointed day they all assembled to convey it with great pomp to the adjoining cathedral of Winchester. When they were about to commence the ceremony a heavy rain burst forth and continued without intermission for the forty succeeding days. The monks interpreted this tempest as a warning from heaven of the blasphemous nature of their attempt to contravene the direction of St. Swithin, and instead of disturbing his remains they erected a chapel over his grave." "St. Swithin is christening the apples" is the more poetical way of describing St. Swithin's rain.

The Moon's Phases.

The phases of the moon are caused by its relative position to the earth and the sun, so that when it is full moon in one part of the earth it is full moon in all parts of the earth, and so for all its other phases. The moon revolves around the earth once in twenty seven days, though on account of the earth's revolution around the sun the mean duration of its lunar month, that is, the time from new moon to new moon is twenty-nine days, twelve hours and forty-four minutes. The dark of the moon is that half of the lunar month during which the moon shines least at night.

MR. HYDE'S RETURN FROM WEST

An Extended Journey, Covering About 11,000 Miles.

A VISIT TO SAN FRANCISCO

He Describes in a Graphic Manner the Hardships asd Privations of the People of Stricken City—Brought Sword Home as Souvenir.

After an extended trip covering about 11,000 miles, through Colorado, Navada, California, Washington and other far Western States, Geo. W. Hyde has returned to his home in this city.

Mr. Hyde is heavily interested in gold mining in Colorado, being a large stockholder and a member of the board of directors of Bullion-Bar Gold Mining Company of Silverton, one of the largest and wealthiest mines in that State. It was for the purpose of looking after his interests that he made the trip.

After having concluded his affairs at Silverton, Mr. Hyde visited principal places of interest in the State named above, including in his itenerary the stricken city of San Francisco. His description of the horrors of the recent disaster of earthquake and fire is quite interesting. He told of the manner in which the rich and poor alike were compelled to live and do their cooking in the streets with improvised utensils, and of the hardships that must have been endured especially for several days after the fire.

Mr. Hyde brought with him the remains of a fencing sword, which he says he picked up from the ruins of the mansion of a millionaire on Knob Hill, the aristocratic suburb of the city. This sword was brought as a souvenir to Col I. E Webster, and was an object of much curiosity to those who inspected it Monday.

Mr. Becker Home.

R. A. Becker, after an absence of several months, during which time he has been running in the capacity of chief mate on the Ward steamship line between New York, Cuba and Mexico, has arrived home, and will spend about three weeks with his family here. Mr. Becker is a thorough seaman, well posted on maritime matters, and for many years was master of English vessels. His friends here are glad to see him again, and glad to know that he holds a lucrative position with a chance of advancement to master in a short time.

WILL MOVE TO GAINESVILLE.

G. M. D. Bowers and Family Expect to Make Their Home Here.

Among the visitors to this city are Mr. and Mrs G. M. D. Bowers of Bartow, who are guests of their daughter, Mrs. B. K Colson.

Mr. Bowers is one of the oldest and most widely known residents not only of Bartow, but of Polk county. He is not only well known and popular, but is quite wealthy, having for many years been engaged in the mercantile business in that progressive town.

It is understood that Mr. Bowers, who owned a nice home in Bartow, has disposed of both his home and his business, and that he has purchased a lot at the corner of East Liberty and Bay streets, this city, and will make his home here. He proposes to erect a fine house, which will be occupied by himself and family.

Mr. Bowers is a man with several children, and it is needless to say that he was attracted here by the splendid educational facilities offered in both the public schools and the University. He will be a welcome citizen, for he is a man who is bound to reflect credit upon a community and assist in its upbuilding from every standpoint.

Card From J. M. Rivers

To the Democratic Voters of Alachua county: I desire to extend to you my most hearty thanks for the liberal support you gave me in my race for State Attorney. I feel sure that my reputation for honesty, integrity and sobriety had something to do with your action in this matter. Now, that it has been decided by the State Democratic Executive Committee to again place the defeated candidate in the race as well as the two of us who received the highest number of votes, I ask you not to be deceived thereby, for if you want a change in this office it has been proven to you that the only way to get it is to vote for me, and if you do, I pledge you that you will never have cause to complain of my moral character nor that I am showing special favors to anyone, as I believe in dealing out equal justice to everyone.

New York, May 29.—One man was killed and five others injured Sunday bye a cave-in on the site of the addition to the Trinity building on Trinity place. The man killed was Dominico Casi.

Black Rot Blights Tobacco.

Hartford, Conn., May 29.—A serious blight has come over many of the tobacco beds in the Connecticut fields in the form a black rot, or tobacco root rot. It is the same disease that has attacked Cuban tobacco for several years, and was noticed for the first time last year, when a few isolated cases were reported. The black rot comes from a fungus growth in the soil.

Opportunity knocks but once. In which respect it is different from Joe Bailey.

Senator Burton of Kansas does not fancy the new spring "styles in stripes."

According to a Chicago physician strawberries cause insanity. We have observed the craze for them.

San Francisco is now able to mix a little salt meat and fried egg with its store of universal sympathy.

Alabama felt a slight earthquake shock the day after both of her Senators voted against the Rate Bill.

An Omaha citizen, said to be worth $500,000, is a candidate for the office of dog-catcher, and the newspapers are already hounding him to death.

After the row that Senator Lodge stirred up on the Rate Bill he ought to be a good drawing attraction when he surges into the Pure Food debate.

It will never be easy for the government to take over the functions of commerce, where commerce has already taken over the functions of the government.

As to getting anything out of Cornelius Bliss about campaign contributions, the N. Y. grand jury will no doubt learn that "where ignorance is bliss, 'tis folly to be wise."

After reading in Mr. Garfield's report how much the Standard Oil Company was able to steal legally, the only wonder is they ever took the trouble to devise larceny of any other sort.

It appears to the professional opinion of Dowie's legal advisers and business managers that his health would be much better in the the balmy air of Ben MacDhui, N. Mex., than in Zion City.

Congress has decided to erect a monument to Columbus in honor of his discovering America. According to a lot of contemporaneous magazine writers they ought to have made it a vote of censure.

It doesn't make much difference whether there is a strike or not the price of coal goes up the same. This is the trust's way of making the dear public pay for its losses during the miners' recent period of idleness.

Senators Morgan and Pettus of Alabama voted against the Railroad Rate Bill, giving as their reason for doing so that if the bill became a law it would take from the State Railroad Commissioners all power to regulate rates. It is to be hoped that the Alabama Senators are wrong in their conclusions.

SENATOR BURTON'S CASE.

Senator Burton of Kansas has been convicted. The Supreme Court of the United States last week turned down his appeal from the judgement of the lower court and sentenced him to six months in jail, a fine of $2,500 and deprivation of the right to hold any office under the government, which of course means the loss of his seat in the Senate. There is one more loophole. The court granted a stay of 60 days for Senator Burton's attorneys to formulate a plea for a rehearing. But though this will carry the case over till the next term of the court in October, it probably does not mean much. This much is practically assured, however, that Senator Burton will not resign but will fight the case to the bitter end, even though that end be the penitentiary and the deprivation of civil rights.

In all this there is a moral. The mere conviction of Senator Burton does not matter particularly. He was a young man when he came to the Senate two years ago. He was smooth shaven and smiling. He might have passed for twenty-five or thirty. Now he is gray mustached and looks all of fifty. He has his nerve with him all right. When the news of his final conviction was sent him over the telephone he was in his room at one of the best hotels in Washington, eating a bowl of milk and crackers. He poured a little more milk into the bowl with a steady hand and remarked, "That's bad hearing," and went on with his frugal luncheon.

Probably Senator Burton is not morally guilty. The crime with which he is charged is not a particularly degrading one. It is simply that of practicing as an attorney before one of the departments in a case in which the government is interested. In all probability the Kansas Senator did not think he was doing anything particularly wrong when he took the case. The wages of a Senator are not very large and he probably wanted to live like some of his rich colleagues of the Senate. Senator Burton had seen a lot of other Senators doing a great many worse things, perhaps not technically illegal, but morally a good deal worse. But he took the case of the Rialto Grain Company and was convicted, as he should have been, for if that sort of transgression were permitted a great deal worse might follow, and Senators ought to keep their togas as clean as their shirt fronts.

Now, one may be sorry for Senator Burton, a good many will be, but the virtue of his conviction is not so much the punishment in his individual case, for the thing he did was not so much out of line measured by the standards of the day, but in the awakening effect that it is sure to have on a great many Senators who have done worse things and still have escaped conviction. He is a vicarious sacrifice, but in all probability an edifying one.

Representative-elect J. H. Willis of Gadsden was chosen on a good roads platform and there were doubtless others chosen, including our own W. A. MacWilliams, who are good roads enthusiasts. It is to be hoped that they will unite in an effort to compel from the trustees of the Internal Improvement Fund a comprehensive explanation of the action of that body in ignoring and disobeying the Act of 1903 requiring them to deposit some $350,000 then in their hands in the State Treasury, to be distributed among the several counties for the construction of hard roads.—St. Augustine Record.

Jacksonville politicians now absolutely control the State Democratic Executive Committee, through the members at large and proxies, and it is said that the primary was called early so these politicians could get away to the summer resorts before the heated term was fairly on. It makes no difference to them that July or August would suit the farmers better than May for holding the primary. The interest of the horny-handed son of toil is not to be considered in connection with the comfort of the Jacksonville politician.

Col. Syd L. Carter, the silver-tongued lawyer of Gainesville, is spoken of as the probable Speaker of the House at the next session of the Legislature. Col. Syd is one of the brightest legal lights in Florida, and there is no one who is more thoroughly fitted for the position than he.—Fort Pierce News.

W. L. Mason, for years a resident of Alachua county, but for some time a resident of Dublin, Ga., is credited by The Courier-Dispatch of that city with having suggested the Australian ballot which proved so satisfactory at a recent election in that city. Mr. Mason is editor of The Dublin Times.

Louisville, Ky., business men and places of amusement are now forced to observe the Sabbath. Not even a game of baseball can be indulged in on Sunday. The law is one of the most strict now in force in any city in the country, and the officials are enforcing it to the letter.

President Blackburn of Rollins College entertained the Senior Class at his home last Friday evening.

The annual meeting of the county commissioners and Good Road Association of Florida will be held in Tallahassee June 19.

By the accidental discharge of a rifle in the hands of a little boy, the little daughter of Frank J. Bartlet of Plant City was killed.

Pensacola requires all wagons and carts offering ice for sale to be equipped with scales so that the ice may be weighed when demanded by the purchaser.

John O'Donovan, formerly a member of the Pensacola Fire Department, has brought action against that city for $7,500 for injuries sustained in the performance of duty.

A Humane Society will soon be organized in St. Petersburg. The citizens of that city have decided to put a stop to the cruelty of the animals. A Humane Society gives them the power to correct these abuses.

The Ocala lodge of Elks gave an elegant reception last week in their beautiful club rooms; which were in gay attire for the occasion. The reception was given in compliment to the ladies and proved a most delightful occasion.

One of the largest cargoes of naval stores ever shipped from Pensacola was cleared Saturday on the Belgian steamer Clematis. The shipment consisted of 450,000 gallons of turpentine and 26,000 barrels of rosin, consigned to Bristol and London.

Pleasant Swain, an attache of the Jacksonville Terminal Company, was killed Friday afternoon by a shock received from an electric wire that had fallen on Cleveland street, near the union station. Mr. Swain had been at work all day, and parties who witnessed his death say that, while on the east side of Cleveland street, near Forsyth street, he stooped over to remove the wire, and was thrown violently to the earth. L. C. Pheifer, an engineer for the Seaboard, saw Mr. Swain when he caught the wire, and with a stick he knocked it from his hand, but Mr. Swain was already dead. The wire was evidently blown down during the storm and was not reported to the authorities.

Rumors have reached the city of a sensational encounter between Editor Claude L'Engle of The Florida Sun and Hon. Jno. A. Graham of Manatee, who was nominated for the Legislature in the recent primary, at the office of The Sun in Jacksonville Friday. The week before the primary The Sun gave Mr. Graham a terrible "roast," on account of which he has filed a suit for $80,000 damages against the paper. Not content with this, however, it is said that Colonel Graham went to The Sun office to get personal satisfaction and there was a display of big guns and an exchange of sulphuric language—but not bloodshed. None of the Jacksonville papers have so far published an account of the affair.—Tampa Times.

ASK NEW TRIAL FOR RAWLINGS.

The Supreme Court May Be Appealed to on New Point.

Atlanta, May 29.—It is among the probabilities that the Rawlings case will again come before the state supreme court.

On last Tuesday, Attorney John R. Cooper made a motion for a new trial for Milton and Jesse Rawlings, both of whom are under death sentence for the murder of the Carter children, before Judge Mitchell, at Valdosta.

The motion for the new trial was made upon the ground of newly discovered evidence, it being alleged that the negro, Alf Moore, who is also under sentence of death for the same crime, confessed to a negro in the Valdosta jail that the Rawlings boys had nothing to do wih the murder.

Judge Mitchell overruled the motion, and those who are familiar with the stubborn fight which Mr. Cooper made for his clients are certain that he will appeal to the supreme court from the judge's ruling.

Parrot Gave Fire Alarm.

New York, May 29.—A parrot gave the first alarm Monday of a fire which caused the loss of one life and the narrow escapes from death of four firemen. The leaking gas started a fire in the basement of an apartment house at 242 West One Hundred and Second street, and although the flames were confined to that part of the building, four firemen were carried out unconscious from the gas fumes, and the tenants were compelled to leave the house. Charles K. Northrup, a broker, who had been ill with an attack of heart trouble, died during the excitement.

Was Wasting Away.

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally, I tried Foley's Kidney Cure and less than two bottles completely cured me, and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. J. W. McCollum & Co.

FIVE KILLED; TWENTY INJURED

The Bolt Descended into a Crowd Near Mobile and Scattered Death.

Mobile, Ala., May 29.—About 3 miles from the city, Sunday afternoon during the progress of a ball game, in an open field, a thunderstorm came up, accompanied by vivid lightning, which struck in the midst of the crowd of spectators, instantly killing five and injuring some 25 more or less seriously. The dead:

Donald Touart, aged 21.

Stephen Touart, aged 19, son of Stephen J. Touart.

Arthur Moody, aged 19.

Two negroes, John Green and Chas. Thomas.

Seriously, probably fatally injured: John Yockers and Fred Johnson.

They were taken to Providence infirmary in an unconscious condition.

Among the painfully injured were Fred Burch, Joe Dolbear and George Cleveland, while there were at least fifteen or twenty others who were shocked and knocked down by the bolt, who quickly recovered and were able to leave the scene.

The field was strewn with bits of shoes and clothing from those who were killed or seriously injured and the bodies of the dead presented a terrible spectacle, being burned in numerous places. A silver dollar taken from the pocket of one of the victims was melted on both faces.

At this hour both Johnson and Yockers are said to be coming around and out of danger.

Crew of a Bark Capsized.

Montreal, May 29.—Captain Nuana, of the Allan Lines Ionian, which reached port Sunday, from Liverpool, reports that at midnight May 21, when in midocean, he rescued the master and crew of the Norwegian bark, Trio, of Tonsberg. The Trio left Tonsbery, on April 12, in ballast for Chaleur bay. During a severe storm on the 10th, her masts went by the board and she began to leak. It was only by incessant work by Captain Hans Thorassen and the crew that the Trio was kept afloat until the Ionian was sighted. The crew was landed at Quebec, where the Norwegian consul took charge of them.

Postmaster Robbed.

G. W. Fouts, postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for biliousness neuralgia, weakness and all stomach, liver, kidney and bladder derangements. A wonderful tonic. At all drug stores. 50 cents.

Express Train Wrecked.

Ashtabula, N. Y., May 28.—New York Central Express train No. 21 eastbound, was wrecked at an early hour Saturday near Hoffman, 7 miles east of this city, while running at a high rate of speed. No human lives were lost, but nine horses were killed and an express agent was fatally hurt and bruised. The train consisted of seven express cars, two horse cars and three empty drawing room coaches. The locomotive and two express cars left the rails, plowing across the tracks and piling up, blocked all the tracks for several hours. The wreck was caused by the fish plates having been tampered with. About 100 Italians working hands between Hoffmans and this city struck on Thursday for higher wages, and marched 7 miles along the Central's track. Friday they continued their demonstrations but several of the men were arrested in this city for trespassing and were fined.

Sustains Demurrer to Indictment.

Kansas City, May 26.—Judge Smith McPherson in the United States district court here sustained the demurrer to the indictment against George H. Crosby, former freight traffic manager of the Burlington road charged with alleged conspiracy to grant rebates on freight shipments from the east to Missouri points. Judge McPherson sustained the claim that the government in its present trial has failed to present sufficient evidence to show a conspiracy and discharged the defendant.
